

Rosemead Boulevard Safety Enhancements & Beautification

Photograph Descriptions

- 1** Site Plan
- 2** Landscaped islands separate and protect the bike lane from the traffic lanes.
- 3** Landscaped islands allows storm water to percolate.
- 4** *Phoenix Dacylifera* at city entrances provide emphasis using drought tolerant planting in the median and parkways.
- 5** Over 400 new trees will mature to provide a lush canopy.
- 6** Center medians provide landscaping and calm traffic on this major street.
- 7** Planting softens the edges of the street.
- 8** Public art locations will allow the boulevard to develop over time.
- 9** New seating nodes provide amenities in commercial areas for pedestrians.
- 10** Residents take advantage of wider, brightly lit sidewalks.
