

Michigan Avenue Neighborhood Greenway (MANGo) Image Summary

Image 1

Map of proposed neighborhood greenway.

Image 2

Conceptual rendering of the Michigan Avenue Neighborhood Greenway (MANGo). This rendering showcases an introduction of new street trees, understory planting, a traffic circle, new lighting, a mini-park, sharrow markings, and wayfinding signage.

Image 3

Volunteers spray painting colorful flowers to demarcate the 'Mini-Park' installation.

Image 4

Volunteer spray painting the boundaries of the 'Chicane' installation.

Image 5

PopUp MANGo 'passport' that was given to over 400 participants. Participants visited each installation along the route, received a hole punch at each installation after leaving feedback, and were then rewarded with a free meal voucher.

Image 6

Close up of the 'Chicanes' installation. This installation involved a couplet of two chicanes, causing drivers to slow along the greenway.

Michigan Avenue Neighborhood Greenway (MANGo)
Image Summary, Continued

Image 7

PopUp MANGo event hub. Here participants checked in, left feedback at the main comment stations, and received a free meal voucher once they finished checking in at all the feedback stations.

Image 8

Image of the 'Traffic Diverter' installation. A participant is seen riding through the bicycle slip that is meant to allow cyclists to continue through while prohibiting vehicles.

Image 9

A young local resident enjoying the 'Mini-Park' installation. Donated trees, understory, and furniture filled the installation.

Image 10

The PopUp MANGo event utilized a number of social media platforms. The above images show a collection of photos posted on Instagram using the hashtag, #popupmango.
