*My first job out of school was with a firm in West Texas. My boss was a past ASLA Chapter President. When it became necessary for me to relocate, he helped me to through the network he had developed. I landed a fantastic job, with a great firm, all thanks to ASLA.*

*Tyler Richburg, PLA, ASLA*

*"ASLA part of how and what I identify myself as, a landscape architect. As a student and future practitioner, ASLA advocates for me at a local, state and national level by spreading awareness of landscape architecture. I like to say, the ASLA is my right-hand gal!"*

*Stephanie Onwenu, Student ASLA*
