American Society of Landscape Architects

SketchUp + 3D Renderings for Landscape Design: Introductory Level

June 25, 2020
12:00 pm – 1:00 pm

Tim Zhang will lead us through the SketchUp and Lumion process beginning with a black and white site plan and moving step-by-step to an illustrative rendering and 3D model. This webinar explains the basics of SketchUp and Lumion and shares some shortcuts designed to help you produce professional level presentation renderings and 3D models.

Presenter:
Tim Zhang
Associate Landscape Designer
WATG

About the Presenter: Tim Zhang is an Associate Landscape Designer at WATG Wimberly Interiors. WATG is a global multi-disciplinary design firm in Strategy, Master Planning, Architecture, Landscape and Wimberly Interiors with projects in over 170 countries. Tim Zhang graduated from Cal Poly Pomona in 2009. Using 3D-Modeling/Rendering software like SketchUp and Lumion, Tim has excelled at creating complex models and video fly-throughs for client presentations.
