

ASLA SAN DIEGO & THE LANDSCAPE  
ARCHITECTURE FOUNDATION PRESENT

# Diversity, Equity & Inclusion

## THINK & DRINK

A virtual happy hour with a purpose

- The call for racial equality sweeping the nation has us all reflecting on what more we can do to advocate for a more diverse, equitable, and inclusive society.
- This is a call to action – our profession needs to reflect the diversity of our communities, promote equity in design and be inclusive to all.
- Grab your favorite libation and participate in how to move these objectives forward.
- Hear from a recent LAF Fellow and LAF Olmsted Scholar as to how his organization is empowering high school students in environmental justice and design; two emerging professionals who have initiated a DEI program in their firm; and an ASLA Fellow whose leadership has actively embraced DEI actions in his own firm.

**Davi de la Cruz, ASLA**, of The Urban Studio, training youth from communities of color who are interested in design careers
