Gary Lai is a Principal and the Director of Regenerative Design, with the multi-disciplinary design, planning and communications firm, MIG, Inc. He is an accomplished landscape architect and thought leader in sustainability, resiliency and conservation. He is on the Board of Directors for the United States Green Building Council, Los Angeles, the Steering Committee for Living Future Los Angeles, is a founding member of the new urbanist think tank, New American Dream, and teaches Landscape Architecture at Otis College of Art and Design.

Alex Hall is a professor in the Department of Atmospheric and Oceanic Sciences and Director of the UCLA Center for Climate Science. His research is aimed at predicting and understanding climate change impacts at scales relevant to decision-makers, especially in the State of California. Alex and his team are currently studying the future of wildfire in California and are working with water management agencies in the Los Angeles region to ensure sustainability of water resources under climate change.

Hosted by:

CalPolyPomona

College of
Environmental Design

Department of Landscape Architecture

First Fridays, noon to 1pm PST

This series is free to the public.
